1	Name of Work	Annual Plan-CTMC PROJECT NO. 137/2026-2027 MUNICIPAL OFFICE KUNNATHUPALAYAM THEKKEGRAMAM ROAD RETARRING-CTMC PROJECT NO. 137/2026-2027 MUNICIPAL OFFICE KUNNATHUPALAYAM THEKKEGRAMAM ROAD RETARRING-General Civil Work
2	Location of Work	Palakkad
3	Estimated Cost of Work	Rs.1271158/-

4	Brief Description of Work	ESTIMATE REPORT The Municipal Office–Kunnathupalayam–Thekkegramam Road is an important road connecting various parts of Chittur-Thathamangalam Municipality. The road runs along the boundaries of Wards 22 and 20 and passes through Wards 21 and 19. Due to prolonged usage and waterlogging at several locations, the road surface has deteriorated considerably, causing inconvenience to the public and affecting the smooth movement of vehicles. The initial portion of the road from chainage 0/000 to 0/532 was re-tarred under the Annual Plan for the year 2025–26. The remaining portion of the road now requires re-tarring. Considering the present condition of the road and the need to restore its serviceability, the proposed work has been included in the Annual Plan for the financial year 2026–27. As per Council Decision No. 39 dated 27/07/2026, an amount of Rs 15,00,000/- (Rupees Fifteen Lakh only) has been earmarked under the Maintenance Grant for Roads (MGR) scheme for carrying out the proposed work. The project has also been accorded approval by the District Planning Committee as per Decision No. 800 dated 19/08/2026. The proposed work commences from chainage 0/532 of the Municipal Office–Kunnathupalayam–Thekkegramam Road and extends for an approximate length of 641 metres. The road has an average carriageway width of 4.50 metres. The improvement work is proposed to be carried out by re-tarring the road using the MSS (Mix Seal Surfacing) method, along with all necessary preparatory and allied works. The estimate has been prepared for a total amount of Rs15,00,000/- (Rupees Fifteen Lakh only), inclusive of the applicable Cost Index of 34.75% prescribed for Palakkad District. The proposed improvement work is intended to restore and enhance the riding quality of the road, improve its durability and serviceability, facilitate smooth and safe vehicular movement, and provide improved connectivity and convenience to the residents and other road users in the locality.
